The Eighteenth Information Security Conference ([ISC 2015](#))

9-11 September 2015, Trondheim, Norway

The Information Security Conference (ISC), which started as a workshop (ISW) in 1997, is a well-established and highly reputable international conference that is held yearly. It has been held in five different continents.

The conference seeks submissions on novel theoretical and practical results in:

access control	economics of security and privacy	security for Internet of Things
accountability	electronic frauds	security for mobile code
anonymity and pseudonymity	embedded security	secure cloud computing
applied cryptography	formal methods in security	security in location services
authentication	identity management	security modeling & architectures
biometrics	information dissemination control	security and privacy in social networks
computer forensics	information hiding & watermarking	security and privacy in pervasive and ubiquitous computing
critical infrastructure security	intrusion detection	security of eCommerce, eBusiness and eGovernment
cryptographic protocols	network security	security models for ambient intelligence environments
database security	peer-to-peer security	trust models and trust policies
data protection	privacy	
data/system integrity	secure group communications	
digital right management	security in information flow	

As in all previous ISC editions, we plan to publish the proceedings in the Springer LNCS series. All submissions are limited to 18 pages in the LNCS style, including bibliography and any appendices; each submission must be intelligible and self-contained within this length. Each submission must be thoroughly anonymized, with no author names, affiliations, acknowledgements, or obvious references. Submissions must not duplicate work that was published elsewhere, or work that has been submitted in parallel to any other conference, journal or workshop that has proceedings. Authors of accepted papers must guarantee that their paper will be presented at the conference.

All submissions are eligible for the competitions for:

- *best paper*, if one of the authors will present the paper
- *best student paper*, if at least one full-time student is the primary author and the presenting author at the conference

(We reserve the right not to give an award.)
